Automated Backup

```bash
#!/bin/bash

backupSRC=$1
backupDES="/adhamscripts/buckup_DIR"

date=$(date +%Y-%m-%d)

tar -czf "$backupDES/$date.tar.gz" "$backupSRC"
echo "backup create. $date.tar.gz"
~
~
```

```
[root@dev adhamscripts]# touch backupsh.sh
[root@dev adhamscripts]# vim backupsh.sh
[root@dev adhamscripts]# chmod +x backupsh.sh
[root@dev adhamscripts]# mkdir -p buckup_DIR
```

```
[root@dev adhamscripts]# ./backupsh.sh /bin
tar: Removing leading `/' from member names
backup create. 2024-11-09.tar.gz
[root@dev adhamscripts]#
```

```
[root@dev adhamscripts]# ls
backupsh.sh   buckup_DIR
[root@dev adhamscripts]# cd buckup_DIR
[root@dev buckup_DIR]# ls
2024-11-09.tar.gz   backupsh.sh
```
